

PRIMARY TRAVEL ROUTES

- Know and drive your primary travel routes in advance.
- Visit www.tuolumnecounty.ca.gov/communitymaps to print a copy of your community map.
- Be prepared to be directed by law enforcement or traffic control personnel. You must follow their directions.
- Never block the travel route of the fire department or other emergency responders.

IF YOU ARE UNABLE TO EVACUATE DURING A FIRE

- Stay inside your house and away from walls.
- Keep all doors closed but leave them unlocked.
- Keep your entire family together and REMAIN CALM. Remember if it gets hot in the house, it is far hotter and more dangerous outside.

AFTER THE FIRE PASSES

- Only re-enter when allowed.
- Check the exterior and roof immediately, extinguish all sparks and embers. If you must climb on the roof, use caution.
- Check inside the attic for hidden burning embers.
- Check your yard for burning wood piles, trees, fence post or other materials.

EMERGENCY INFORMATION

During an emergency residents are encouraged to monitor the following for updated information:

Tuolumne County (TC) OES
Tuolumne County Fire
Tuolumne County Sheriff

Tuolumne County Animal Control
Cal Fire TCU

@tuolumnecountygovernment
@TuolumneCoFire

Phone: (209) 533-6395

Email: oes@co.tuolumne.ca.us

Residents are encouraged to visit www.tuolumnecounty.ca.gov/oes

This brochure made possible by a grant from the California Fire Safe Council, Wildfire Evacuation Planning and Development project, awarded to the County of Tuolumne. www.cafiresafecouncil.org

TUOLUMNE COUNTY WILDLAND FIRE EVACUATIONS

TUOLUMNE
COUNTY

Office of Emergency Services

WWW.TUOLUMNECOUNTY.CA.GOV/OES

BE PREPARED

- Have adequate clearance around structures with a minimum of 100 feet (including woodpiles), removing all flammable materials.
- Clear pine needles and leaves from gutters and roof. Trim back overhanging branches at least 10 feet.
- Replace roofing and siding with non-flammable or fire resistive materials.
- Reduce or remove flammable vegetation, including landscape plants, and replace with less flammable plants.
- Maintain greenbelt fuel modification around developed areas.
- Prepare pets and livestock and have a plan to evacuate them.
- Collect valuables, medications, prescriptions, and other personal items in one place and be ready to evacuate if necessary.
- Have a plan and a designated meeting place for reuniting family members during an evacuation.
- Use the county's community maps www.tuolumnecounty.ca.gov/1169/Community-Maps to familiarize yourself in advance with your travel route options.

SCAN ME

DURING AN EVACUATION

- Early evacuation helps firefighters keep roads clear of congestion and lets them move more freely to do their job. In an intense wildfire, they may not have time to knock on every door.
- Tuolumne County Sheriff's Office determines the areas to be evacuated and as needed in conjunction with Fire personnel.
- Sheriff's Office will notify residents and conduct evacuations in partnership with fire and other law enforcement agencies.
- Evacuated residents will be given instructions as to travel routes and safe locations.
- Law enforcement officers will be responsible for the security of evacuated areas.
- Tuolumne County Office of Emergency Services will determine shelter and relocation sites.
- California Highway Patrol and Tuolumne County Sheriff's Department will control traffic and maintain access for emergency equipment.

EVACUATION NOTIFICATION

Residents will be advised of potential hazards and the possibility of evacuation through:

- Tuolumne County Emergency Alert Notification System—When activated, alerts will come from the Public Information Line phone number (209) 533-5151. To sign up visit www.tuolumnecounty.ca.gov/1170/Emergency-Alerts
- Local radio stations (see back page for a list)
- Mymotherlode.com
- Door-to-Door when feasible
- Official Social Media
<https://www.facebook.com/TuolumneCountySheriff>
<https://www.facebook.com/TuolumneCountyOES>

The two types of evacuations:

Evacuation Warning

Issued when an evacuation order is eminent. It includes the specific geographical area that may be evacuated and procedures that should be followed to prepare for an evacuation.

Evacuation Order

Issued when there is an immediate threat to life and/or property. The evacuation order contains specific geographic areas to be evacuated and procedures to be followed.

Use of Sirens During Evacuations

There are several outdoor audible alert sirens that have been placed on existing features within communities that would be used to notify residents and visitors of an evacuation. These sirens are meant to notify those who are outdoors in that local area and not everyone will hear them depending on wind, topography and or location. Should you hear a siren, please pay attention to local radio stations and authorized official social media for more information. Current locations include Groveland, Twain Harte, Tuolumne, Cold Springs and Strawberry.

IT IS CRITICAL TO LEAVE WHEN AN EVACUATION IS ORDERED

It is recommended to evacuate when a warning is issued. The direction of your evacuation route will depend upon the location of the fire in relation to your home. Emergency personnel will direct you to the safest route.

SHELTERING OPTIONS

- **Shelter in Place:** when the Fire Department feels it is safe to stay in your home during low intensity fire where the structures have a good clearance and are made of fire resistant materials.
- **Shelters:** Tuolumne County Office of Emergency Services works with Red Cross to establish shelters for the immediate and short term housing and care of evacuated residents and animals.
- **Alternative Locations:** Residents who do not use designated shelters should determine alternative housing locations in advance. If you are evacuated and choose not to go to a shelter, you are advised to contact the Red Cross to provide information about your location, in the event family or friends trying to find you.

WHAT TO DO IF A WILDFIRE IS APPROACHING

- Park your vehicle facing out. Place keys in your ignition.
- Place your valuable documents and family mementos in your vehicle.
- Secure pets and be prepared for them to be transported.
- Close shutters and heavy drapes.
- Leave your electricity on and turn lights on in several rooms. This will make your house more visible in heavy smoke.
- Cover up by wearing long pants, long sleeved shirt, and a bandana to cover your face.
- Shut off liquefied or natural gas.
